department of TECHNOLOGY

WAYS TO GET INVOLVED
The technology management major provides an advantage by offering a broad program of studies about industry, including its organization, resources, processes and management technologies. Students in this program study the disciplines of mathematics, science, industrial management and production technology.

**Program Highlights!**

- Accredited by the Association of Technology, Management, and Applied Engineering (ATMAE)
- The combination of lecture and hands-on activities provides students a broad understanding of the field
- Interdisciplinary curriculum with technical and management courses
- Small class sizes allow you to receive a better education with more personal attention from your professors
- Dedicated faculty who have strong professional relations with industry and potential employers of professional organization chapters
- Flexible delivery with online and classroom settings
- Co-op/internship opportunities
- Accepts up to 65 transfer credit hours including AA and AAS degrees
- Strong job placement
- Co-op internship opportunities
- Provides a broad technical background with strong manufacturing skills
- Advisory board involvement
